Projects

Project 1, *Portfolio Website using ReactJs* 🔗
Created a Personal Portfolio using tech stacks
HTML, **CSS**, **JavaScript**, and **ReactJs**. Contains
various components like a nav bar, experience
section, education section, etc. This website is
responsive and dynamic with React as a
framework.

Project 2, *Snake Game* 🔗
Created a simple Snake Game using tech stacks
HTML, CSS, and **JavaScript.** A snake travels
around a given area and gets bigger by eating its
food. Every increase in the length results in an
increment of the score also. This game is
designed using **JavaScript** logic and dynamic
design.
